

Keepsafer Electronic Security Systems

The latest addition from the world's largest supplier of security products—Keepsafer™

Consider these statistics:

- 1 in 4 homes will be burglarized this year.
- Security system category growing at 25% a year
- 80% of new homebuyers list a security system as one of their top ten upgrades.

For:

- Retailers
- Installers
- Locksmiths
- Professional builders

Keepsafer™ — the line that makes security profitable.

Applications:

Home or apartment, single-family or multi-family electronic security.

Certifications:

FCC approved, UL listed transformer.

Communications Medium:

Wireless R.F. digital technology. Interfaces with most 6 volt digital communicators.

Frequency:

303.875 MGHTZ. Frequency controlled by S.A.W. resonator.

Range:

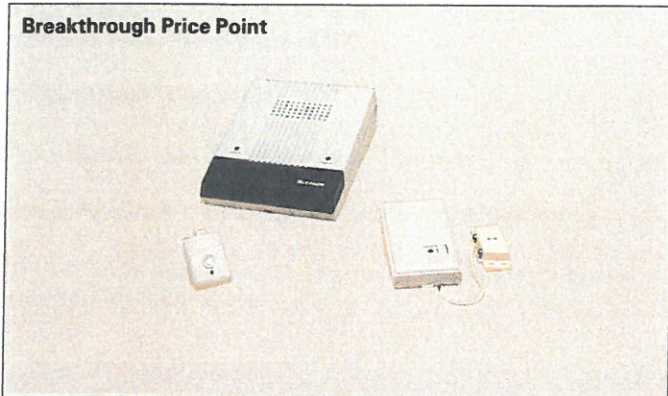

150 feet

Contact Interface:

Transmitters interact to normally open magnetic switches.

Keepsafer Consoles

Breakthrough Price Point

The Keepsafer Compact: The Start of Something Big. (71-151)

Features miniature remote control for easy operation. Also comes with a built-in 85db alarm and one Transmitter/Sensor set with Duracell® battery. An unlimited number of Transmitters along with other Keepsafer accessories can be added.

The Keepsafer: In Case of Police, or Other Emergencies. (71-102)

The Keepsafer comes with two Transmitter/Sensor sets that trigger the alarm the instant a monitored door or window is opened. Arms and disarms only with personal access code entry. Includes a delay mode (up to 40 seconds) and an instant emergency button.

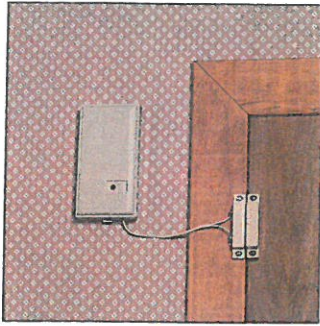

The Keepsafer Plus: Remote Control Means Greater Security and Convenience. (71-105)

The Keepsafer Plus comes with three Transmitter/Sensor sets and a Remote Control allowing for inside and outside operation. Interfaces with an optional passive infrared detector—the standard device used in the alarm industry. Works with all Keepsafer accessories—the ultimate in wireless security.

The Keepsafer Plus Pro: Permanent Protection (71-152)

Like the Keepsafer Plus, the system features top-of-the-line security and comes complete with Remote Control and three Transmitter/Sensor sets. The wall-mounted Keepsafer Plus Pro can be permanently installed as a home upgrade feature. Featuring state-of-the-art zone identification features, the Keepsafer Plus Pro works with all Keepsafer accessories.

Transmitter with Sensors
(71-100)

Monitors additional doors and windows.

Installation Kit
(71-127)

Screwdriver, wire stripper, 50 feet of wire, and 6 spacer bars assist installation.

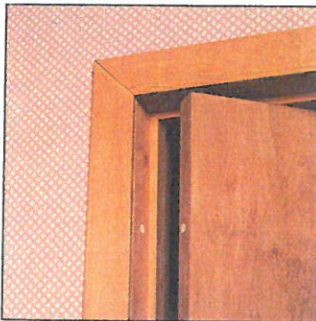

Back-Up Power Supply
(71-101)

Assures continuous operation if power fails.

Sensor Set
(71-107)

Connects with transmitter already in place to monitor additional door or window.

Recessed Magnetic Sensor
(71-123)

Smaller and virtually unnoticed sensor installs inside doors and/or jambs.

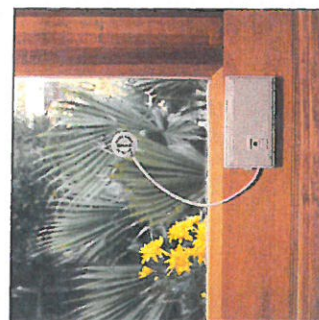

Smoke Alarm Monitor
(71-108)

Sounds own alarm and signals control unit to sound emergency siren when smoke is detected. UL listed.  California Fire Marshall approved.

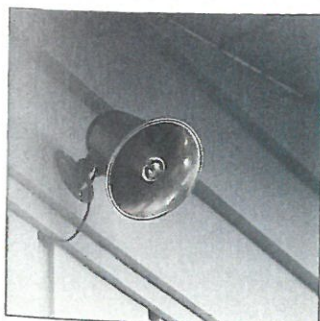

Bedside Alarm
(71-104)

Triggers emergency or auxiliary alarm. Works as additional remote with Keepsafer Compact.

Glass Break Detector
(71-112)

Sounds alarm if intruder breaks glass.

Power Siren
(71-103)

Alerts neighborhood with 103 db siren if alarm is tripped.

Glass Break Detector with Retractable Cord
(71-126)

Provides protection for moveable or sliding doors and windows.

Keepsafer Accessories

Pendant
(71-106)

Triggers emergency or auxiliary siren. Works as additional remote control with Keepsafer Compact.

Houselighter Lamp Module
(71-122)

Turns on house lights or flashes them when any alarm is triggered.

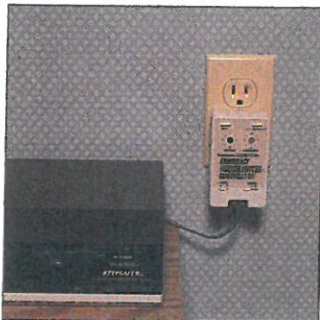

Remote Control
(71-109)

For additional users, operates Keepsafer Plus and Keepsafer Plus Pro within range.

Area Detector
(71-110)

Standard device used in the professional alarm industry. Passive infrared technology signals alarm when monitored interior area is entered. Works only with Keepsafer Plus and Plus Pro.

Houselighter Controller
(71-121)

Supports any number of lamp modules to turn on or flash lights when alarm is triggered.

The Schlage Emergency Dialer:
Instant Connection to a Security Network
(71-111)

The instant an alarm is tripped, the Emergency Dialer uses an 800 number to call the Monitoring Station and transmit the message. A computer then determines the type of alarm and the operator makes a confirmation call. As the next step, the operator then dials the emergency service or other preassigned number.

The revolutionary Schlage Dialer—complete home security at an affordable price.

Small Self-Adhesive Sensor
(71-125)

Provides same protection at one-third the size of regular sensors.

Three Inch Wide Gap Sensor
(71-124)

Monitors garage and other doors with wider than normal gaps.

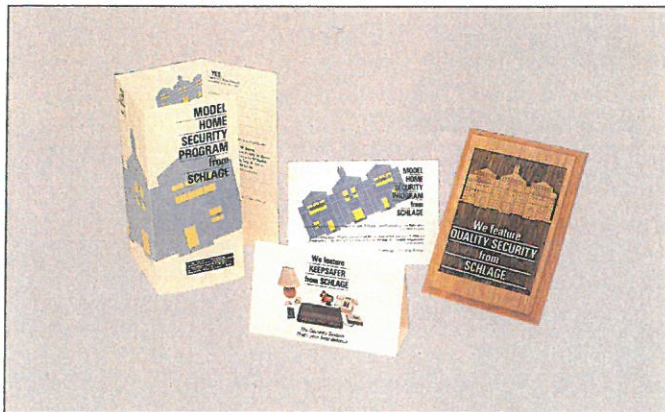

Keepsafer Co-Op Plan

A 75/25 (up to 3% of total Keepsafer sales) co-op plan is available. Contact your Schlage distributor representative for details. Free ad slicks available.
